

# EVER PS END MONTH PAY

## DOCUMENTATION

*Purchase order module with payment at the end of the month*

### PREREQUISITES

#### Server

The Ever Popup module works on PHP versions from 5.6 to 7.

#### Prestashop

The module works on versions of Prestashop 1.6 to 1.7

### INSTALLATION & CONFIGURATION

#### Adding the module to your shop

##### Prestashop 1.6

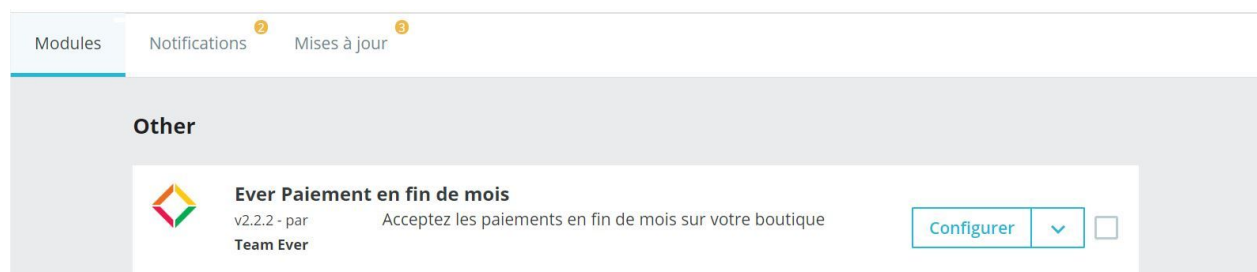

From your Prestashop administration interface, click on the "Modules and Services" tab.

Place the module on your site by clicking on the "Add a module" button and install it.

##### Prestashop 1.7

From your Prestashop administration interface, click on the "Modules" tab, then "Modules and services".

By adding the module on your site, it will install itself.

## Configuration

### Administrator side

First, make sure your store's contact information is in place so that the module can display it on purchase orders

Note in passing **the cron job that must be set up on your server**, so as to generate the end-of-month invoices.

The module asks you which categories of products are allowed. If the customer places an unauthorized product in the cart, it will not be proposed to make purchase orders.

Determine the customer groups authorized to create purchase orders, knowing that the customer must in all cases be connected and have a valid address to make purchase orders

You can authorize customers to download purchase orders for a single product directly from a product page. If the customer is logged in and has a valid address, the order form will be generated in one click.

Each end of the month, on a cron job, the module creates an order per customer, listing all the orders placed in the month. Determine the default state.

Specify the email of the administrator receiving the purchase orders generated by the customers, the prefix of the purchase orders.

\* Etat des commande en fin de mois    
Préciser un état de commande par défaut pour les paiements en fin de mois

Email    
Email recevant les bons de commandes en fin de mois

Préfixe des bons de commandes    
Merci de préciser le préfixe des bons de commandes

Sujet de l'email des bons de commandes    
Merci de préciser le sujet de l'email pour l'envoi de vos bons de commandes

Specify the name of the purchase order file, as well as the text in the footer of purchase orders (company information, general conditions, etc.)

Nom du fichier des bons de commandes    
Nom du fichier PDF

Texte en pied de page des bons de commandes   
   
RIB, coordonnées, SIRET...

Confirm to save.

You can find the list of purchase orders placed on your site by going to the "Orders" tab of your administration interface.

For each purchase order, three buttons are available if the purchase order is not yet validated :

- view: download PDF file
- validate: will validate the order form
- will delete the order form

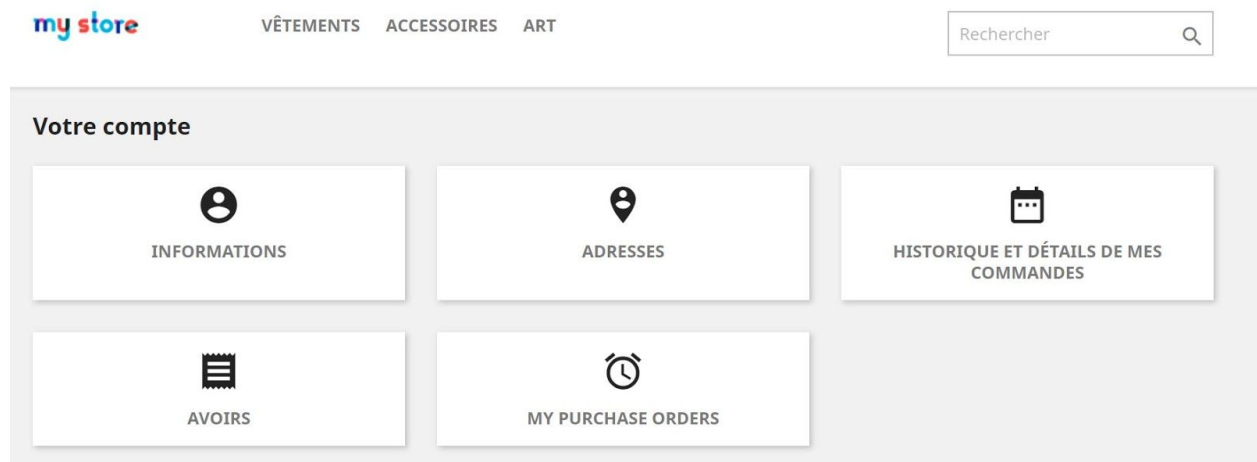

Purchase orders list

PURCHASE ORDERS LIST

ID	Customer	Total	Delivery	Valid	Ordered	Date

8	C. CHALAMON	14,28 €	France	Non	Oui	21/12/2018 18:32:59	Afficher

## Customer side

The customer has privileged access to his order forms from his customer account

The customer can find on this page the list of purchase orders made on your site.

The first column allows him to download in PDF format the orders placed, the second gives him the date of creation, the third the total TTC of the purchase order, the fourth specifies if it is linked to an order, the fifth if the purchase order has been validated, and the last one allows to put back to the basket the products found in the order form.

Here is a list of all your purchase orders.

Vous pouvez commander à n'importe quel moment sur notre site

N'hésitez pas à nous contacter par téléphone à ou par email à

#	Téléchargement	Date de création	Total TTC	Invoice	Valide	Ajouter au panier
